SATURDAY, MARCH 8, 2025
10:00 A.M. TO 4:00 P.M.
SONOMA COUNTY FAIRGROUNDS

We are looking for hands-on science, technology, engineering, and mathematics (STEM) activities to spark wonder and curiosity. Last year over 10,000 people attended for hands-on science experiences with exhibitors, professional scientists, and engineers.

Bring a hands-on STEM activity or display designed for kids ages 9 to 14 that they can explore, touch, design, test, do, have fun, and learn! We can help you develop a great STEM-based activity.

Exhibitors may be companies, agencies, businesses, schools, clubs, or other groups.

Applications due by: January 26, 2025.
